

2024 Pennsylvania Statistical Poster Competition Winners

The Mathematics Department at Saint Francis University is pleased to announce the winners of the 2024 Pennsylvania Statistics Poster Competition. The annual state competition is in its twenty-eighth year overall and coordinated for the sixteenth year by Saint Francis University. Cash awards of \$96 for first place, \$72 for second place, \$48 for third place, and \$24 for fourth place in each of four grade levels are awarded to the students who submitted winning posters. External financial support is provided by several regional and state professional organizations, including the Pennsylvania Council of Teachers of Mathematics, Mathematics Council of Western Pennsylvania, Pittsburgh Chapter of the American Statistical Association, Harrisburg Chapter of the American Statistical Association and Philadelphia Chapter of the American Statistical Association. A statistics poster is a display containing two or more related graphics that summarize a set of data, looks at the data from different points of view, and answers specific questions about the data. The 263 posters submitted electronically included 66 in the K-3 grade category, 57 in the 4-6 grade category, 53 in the 7-9 grade category, and 87 in the 10-12 grade category. These 263 posters were submitted from a total of 446 students! Judging for the state competition was held in April 2024. Winning posters were then submitted to the Data Visualization Poster Competition, which is coordinated by the American Statistical Association. Congratulations to all the students who created and submitted the winning and honorable mention posters, and to the teachers, parents and mentors who guided the students.

Grades K-3 Winning Posters 2024
