Qualified students will transfer for their senior year to a hospital with a CAHEA-accredited School of Medical Technology for 12 consecutive months. There the student, under the supervision of the pathologist, will study various subjects such as Clinical Chemistry, Immunohematology and Blood Banking, Bacteriology, Parasitology, Immunoserology and Urinalysis, totaling 32 transferable credits. Grades earned during the clinical year will be included in the final quality point average.

Upon satisfactory completion of the prescribed hospital course, the student will receive the Bachelor of Science degree in Medical Technology, conferred by the University.

## **BACHELOR OF SCIENCE IN MEDICAL TECHNOLOGY**

### **MAJOR REQUIREMENTS**

Biology 111, 131, 205, 206, 214, 231, 301, 305, and 331 ; Mathematics 121-122 or 111-112 with approval of the chair; Physics 104 or 121, Chemistry 101, 102, 203, 204; Statistics 101. Computer science recommended.
