All students who deposit today get to pop a balloon for a prize! Students who already submitted their deposit will be entered into a raffle.

President's Celebration of Leadership, Academic Scholarship, and Service (C.L.A.S.S. Day)

SESSION DESCRIPTIONS

Come Alive with the Arts: Explore SFU Fine Arts

Come alive with the Arts at SFU! The Center for Fine Arts offers a variety of classes and co-curricular opportunities that promote creative expression, including: World Drumming Ensemble, Marching & Pep Bands, visual arts, Theater, and much more! Meet our Fine Arts faculty and hear more about the exciting groundbreaking of the Connors Family Fine Arts Center coming Fall 2023!

Discovering How to Become that Someone: Explore SFU Career Services

Join members of Saint Francis University's Career Services Office as they share their philosophy on helping students reach their career goals. Emphasis will be placed on services and programs that assist students with finding jobs in their career paths. The session will also include information about aptitude assessments, resume assistance, mock interviews, graduate school advising, job fairs, and student internships.

Discovering Your Global Self: Explore SFU Study Abroad

Our study abroad programming presents many opportunities for our students to gain an understanding and appreciation of our global community, all while earning credit. Join us for an overview of these opportunities and hear students' stories of how embracing the Franciscan value of a Global Vision through studying abroad has impacted their lives.

Getting Involved: Explore SFU Student Life

SFU offers more than 75 campus clubs and organizations. Stop by Schwab 202 to engage in conversation with faculty and students from campus organizations. We encourage you to ask questions about co-curricular offerings and research opportunities.

The Greek "Mythology": Explore SFU Greek Life

Do leadership, fellowship, and philanthropy describe the Greek Life you know? They will after speaking with leaders of SFU's Greek life community. This student-run session will dispel the myths about Fraternities and Sororities and highlight why this long-standing tradition continues to uplift this campus community.

For Parents by Parents: Discover the SFU Difference

Saint Francis University believes that parents are critical partners in their students' educational experiences. We invite the parents of prospective students to attend this session and speak with parents of current SFU students. The format of this session is Q&A and designed to provide parents with a better understanding of the parental role in helping their student to embark on a successful and enjoyable SFU experience.

Life as a Division I Student Athlete: Explore SFU Athletics

As a Division I University, athletics play a big role in the lives of many students. Join members of our athletic teams as they share their stories with you. Our student athletes will offer you a candid look at what it's like to compete on the field as well as the classroom.

Making College Count: Explore SFU Co-curricular Experiences

All students choose a college major to lead to their first job. What you learn will in part determine which job you get, the impact you make, and how much you can earn. Learning includes both the content in your courses and the portfolio of experiences you acquire during your four years of college. In selecting a college, look for opportunities that transform you from just another student or graduate to someone that employers and communities are actually looking for. This presentation focuses on your Experiential Self.

Walking with Francis: Explore Campus Ministry

In the spirit of Saint Francis, we call on students of all faiths to use their gifts and passions to serve others. Whether it be on a local, national, or global level, our students make a difference in the lives of those around them. Join our current students to learn about the variety of service opportunities we have available, what they take part in, and how it has made an impact in their own development.

What Would Francis Eat? Explore SFU Philosophy

Join Dr. Arthur Remillard, Associate Professor of Philosophy and Religious Studies, for an enlightening mini-lecture and discussion on philosophy, religion, and food. Where does our food come from? Who is responsible for planting, picking, raising, slaughtering, and processing the food we eat? What ethical issues impact our food chain? How does our approach to food shape our outlook on the world and who we are as Americans? This experience serves as a window into the challenging concepts and critical thinking skills required and developed through a university education.

Our Financial Aid professionals are available throughout the day.
