PART V: OTHER INFORMATION

Appendix 1: Class of 2014 - Post Graduate Survey68

POST-GRADUATION CAREER REPORT – CLASS OF 2014 OVERVIEW

PURPOSE

The purpose of this survey is to determine employment and graduate/professional school career information for Saint Francis University graduates. The information will also be used in tracking trends, evaluating programs and services, and comparing data across the various disciplines.

PARTICIPANTS

Every Saint Francis University graduate from the Class of 2014 (**708**) received a follow-up survey. The Class of 2014 consists of December 2013 graduates and May/Summer 2014 graduates.

SURVEY METHODS

Over the course of one year, the Office of Career Services used several methods to obtain data. First, each graduate received a post-graduate survey by email and postal mail in November 2014. Two months later, each non-respondent received the survey again by email and postal mail. The next strategy included contacting advisors and academic departments to discuss and obtain graduation data. In addition to mailings and faculty contact, follow-up phone calls and emails were made to non-respondents and online sources (LinkedIn, Facebook and Google) were utilized. The use of these methods provided for a data collection rate of 88%.

INFORMATION GATHERED

Survey recipients were asked to report the following information:

- ⊙ Employment Status (Full or Part-time, or still job searching)
- ⊙ Employer
- ⊙ Job Title
- ⊙ Current Salary
- ⊙ Graduate or Professional School Plans
- ⊙ Methods used to obtain current status
- ⊙ Length of time to obtain current status
- ⊙ Satisfaction with current position

All of the information contained in this report is based on the surveys returned to the Office of Career Services or retrieval of data via phone calls, emails and online sources. It should be noted that not all of the questions were answered on each survey (such as salary information), so the results are based on the data received.

The formula used to calculate the overall employment/graduate school rate is as follows:

$$\frac{\# \text{ Employed} + \# \text{ Attending Graduate School}}{\text{Total \# of Responses}}$$

**POST-GRADUATION CAREER REPORT –
CLASS OF 2014
TRENDS AND ACKNOWLEDGEMENTS**

Saint Francis University's overall employment/graduate school rate remains competitive for 2014 at **98% with 97% gainfully employed or attending graduate school within 6 months.**

In comparing the data from the Class of 2014 to prior years, the results are as follows:

- The percentage of students employed increased by 3% from last year for a total of 76% of the Class of 2014 – the highest percentage employed since 2010 (77%).
- Twenty-seven percent of the Class of 2014 are attending graduate school which is consistent with the range of 26-28% over the last 5 years.
- The response/data collection rate of 88% for this year's class of 2014 was higher than the rate for 2013.

Specific statistical data can be found on the graphs and charts in the pages following the Executive Summary. Overall, this information will be useful to students, alumni, prospective students, faculty, and administration. All questions regarding this information may be directed to Beth McGregor, Associate Director of Career Services, at Saint Francis University.

ACKNOWLEDGEMENTS

Caroline Sandrick (Graduate Assistant, Career Services)	→	Compiler of physical report
Melissa Stasik (Student Career Coordinator, Career Services)	→	Assistant data collector
Beth McGregor (Associate Director, Career Services)	→	Coordinator of data and tracking responses
Dr. Julie Barris (Director, Career Services)	→	Supervisor throughout report
Dr. Frank Montecalvo (Vice President for Student Development)	→	Supporter of project and office

Many thanks to the faculty and staff who provided Career Services with updated information about the Class of 2014.

POST-GRADUATION CAREER REPORT – CLASS OF 2014

Executive Summary

Within 6 months of graduating, **97%** found employment or enrolled in graduate school. Of the 96 %, **97%** were employed or earning a degree in their field or a related/chosen field. **1%** secured positions between 7-8 months after graduation.

Within 9 months: **98% secured employment or graduate school with 98%** employed in their field or a related/chosen field.

2014 Survey Data Collection Rate: 88% 2013 rate was 86%

Of the 88%:

- **76%** are employed...
 - *Full-time: **78%** *Part-time: **4%** *Self-employed: **<1%**
 - *Full-time/Part-time Status Unknown: **18%**
 - *Employed *and* attending graduate school: **4%**
 - *Employed and attending other education/training: **<1%**
- **23%** of 2014 undergrads are attending graduate school only
- **<1%** are enrolled in other education/training only

Of the 26% enrolled in graduate programs, more than 63% are enrolled in an allied health graduate program at Saint Francis University.

Job Satisfaction	2014	2013	2012	2011
Very Satisfied	69%	80%	70%	69%
