### **On the cover:** Wadler Fleurina, '16, Masters of Physician Assistant Sciences

From the island of Haiti to the pines of Saint Francis University, it has been a long, but fortuitous journey for Wadler Fleurina, MPAS, PA-C, MB (ASCP). Growing up in an orphanage in Haiti, Wadler knew he wanted to work in the medical field. Fate (and an internet search) led him to Saint Francis to realize that dream. After his graduation in May, he started practicing occupational medicine and urgent care in Ypsilanti, Michigan. He is currently expanding his medical knowledge to family and internal medicine. ## Methodology

The 2016 First Destination Survey was distributed by the Career Services Office to 764 undergraduate and graduate students who graduated in December 2015 and May or Summer of 2016. Each graduate received an email with a link to the survey and a paper copy of the survey by regular mail in November of 2016. Two months later, in January 2017, each non-respondent was contacted again by email and regular mail. Faculty, staff, advisors and academic departments were then contacted to obtain any available post-graduation information for non-respondents. In addition to the mailings and faculty contact, follow-up phone calls and emails were made to non-respondents. Social media tools (LinkedIn, Facebook, and Google) were also used to retrieve graduate information.

Appendix A of the full report includes a copy of the **First Destination Survey**, the tool used to capture the information contained in this report. View the full report at [www.francis.edu/career](http://www.francis.edu/career).

# Career Snapshots: Class of 2016

## Madeline Berry

### School of Arts and Letters

Never let the past determine your future, unless you're Madeline Berry. Madeline graduated with a Bachelor of Arts degree in History, and is currently an AmeriCorps Environmental Steward with the Cambria County Conservation District. Her history background allows her to cultivate an awareness of current environmental problems and their connection to the past, which provides her with a unique perspective on climate issues. Always looking forward, but with a passion for the past, she is currently applying to graduate schools so she can continue to study history.

## Pablo Medina

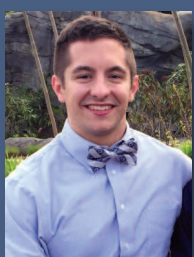

### School of Business

A standout soccer player from Mexico City, Mexico, Pablo made the long journey to SFU with the goal of playing for a Division I team. But his athletic successes soon followed him off the field and onto a path he never expected. Pablo graduated a decorated triple major in Finance, Accounting, and Management Information Systems with multiple honors. His SFU accomplishments led him to New York City, where he accepted an Investment Banking Analyst position at Bank of America Merrill Lynch's Global Technology, Media & Telecom Group. Pablo's goals may have changed since his first days at SFU, but his drive for success remains.

## Dillon Brown

### School of Sciences

Creating video games reminiscent of Space Invaders in his high school computer programming class piqued Dillon's interest in Computer Science. That interest (and a double major in Computer Science/Applied Mathematics) eventually landed him a position as a Software Developer with New Pig Corporation. Based out of Tipton, PA, New Pig helps businesses manage leaks, drips and spills to create clean and safe environments with their products being used in over 300,000 facilities worldwide.

## Danielle MacMurtrie

### School of Health Sciences

Danielle blended her love of anatomy and art during her time at Saint Francis University, creating large scale oil paintings for the School of Health Sciences. After graduating with her Doctor of Physical Therapy degree she began working at the HealthSouth Rehab Hospital in Lancaster. There she found the perfect patient population to build her skills as a new PT, while gaining exposure to more complex cases. She has also created her own little version of the SFU "Boiler House" Fine Arts studio in her apartment.

**Becoming "the someone" that they are meant to be:**

**Saint Francis University students go on to become**  
doctors, biologists, chemists, engineers, entrepreneurs,  
lawyers, teachers, nurses and policy-makers to name a few.

Our graduates enjoy successful careers  
and carry their Franciscan values with them.
