NEW STUDENT ORIENTATION 2022

10:10 a.m.- 11:25 a.m. Welcome, Introductions and Summer Reading Discussion

We hope you did your homework! Students will meet with their advisor to discuss the summer reading project. The book for this year is *How to College* by Andrea Malkin Brenner and Lara Hope Schwartz. The first practical guide of its kind that helps students transition smoothly from high school to college. The transition from high school—and home—to college can be stressful. Students and parents often arrive on campus unprepared for what college is really like. Academic standards and expectations are different from high school; families aren't present to serve as "scaffolding" for students; and first years have to do what they call "adulting." Nothing in the college admissions process prepares students for these new realities...*How to College* is here to help guide first-year students and their families through the transition process, during the summer after high school graduation and throughout the school year, preparing students to succeed and thrive as they transition and adapt to college. The book draws on the authors' experience teaching, writing curricula, and designing programs for thousands of first-year college students over decades. (Amazon)

Do you know of some students on your campus lacking focus or motivation? Do you ever feel like you have misplaced the passion for why you chose to go to college in the first place? What would it look like to have more students on campus that are focused, motivated, and committed to meaningful success? Just in ready to inspire you toward that reachable reality and to keep you effectively engaged while doing so. In this inspiring and personal keynote, Justin challenges students to identify or reconnect with your why (purpose) and to live it out now (passion) to achieve meaningful success. Too much focus on the “why” can lead to great reflection with little to no action. Too much focus on the “now” can lead to impulsive and ultimately bad decisions. Learn how a clarifying blend of both can lead you to be a more engaged student, impactful leader and ultimately a thoughtful global citizen.
