

## STATE AUTHORIZATION STATUS LIST

*Last updated: November 17, 2021*

Saint Francis University (SFU) has been approved to participate in the National Council for State Authorization Reciprocity Agreements (NC-SARA). NC-SARA welcomed the University to officially join the initiative effective January 1, 2017.

As a SARA-participating institution, SFU is in compliance with the regulations of each SARA state as indicated in the table below.

### **The following institutional activities are authorized in each SARA state:**

- Offering online courses or programs;
- Advertising through print, billboard, direct mail, Internet, radio, television or other media;
- Recruiting, including athletic recruiting;
- Contractual arrangements in states (e.g., procurement contracts or online academic offerings provided through consortia agreements);
- Courses on military installations, limited to active and reserve military personnel, dependents of military personnel, and civilian employees of the military installation;
- Faculty, adjunct faculty, mentors, tutors, recruiters or other personnel residing in the state and working from their homes or another private, non-institutional site, provided that those staff are not engaged in activities that would otherwise constitute physical presence as defined by the NC-SARA agreement;
- Field trips (with the exception of full-scale residency programs such as a summer session at a field station);
- Proctored exams held in the state;
- Operation of a server or other electronic service device;
- Short courses or seminars (20 classroom hours or less, or the equivalent thereof, in one six-month period);
- Full-term courses in which the instructor and students physically meet together for no more than two meetings, totaling less than six hours;
- Experiential learning opportunities, such as a clinical, practicum, residency, or internship, provided that:
  - The University has already obtained all the necessary professional and licensure approvals necessary (if any) to conduct the learning opportunity in the state, and
  - Only 10 students in the same academic program from the University are physically present simultaneously at a single field placement site.

NOTE: SARA authorization of experiential learning opportunities does not take into account any SFU or licensure board requirements including, but not limited to, the need to have an approved Internship Contract through the Office of Academic Affairs or an affiliation agreement with the field placement site.

### **Programs leading to Professional Licensure:**

SARA has no effect on state professional licensing requirements. If you are located outside of Pennsylvania and are considering enrolling in an online program of study that leads to a professional

license, we highly recommend that you consult the Authorization Status table below to determine which professional licensure programs are authorized in the state in which you are located. The University is required to seek exemption or authorization from the professional licensing board in a state in order to offer a program there designed to lead to professional licensure in that state.

Requirements for licensure vary from state to state. Saint Francis University does not guarantee that its programs designed to fulfill Pennsylvania licensure requirements will satisfy the criteria of professional licensure boards in other states and territories. Consult the University's [State Authorization and Regulatory Compliance](#) web page and scroll to the **Professional Licensure Tables** for general disclosures related to the University's professional licensure programs, licensing board contact information, and educational requirements in individual states. Eligibility for licensure and/or certification may involve more than successful degree completion. Saint Francis University makes every effort to maintain current information; however, licensure requirements are frequently revised.

**Consult the table below for authorizations and restrictions regarding the University's operation in states outside of Pennsylvania.**
