Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2018-19. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	175
Number of clock hours required for student teaching	525

Are there programs in which candidates are the teacher of record?

☐ Yes

☒ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	
Number of years required for teaching as the teacher of record in a classroom	

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

4

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

3

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

152

Number of students in supervised clinical experience during this academic year

82

Please provide any additional information about or descriptions of the supervised clinical experiences:

Students are placed in classrooms with a certified teacher. Each student is required to complete clinical experience requirements for each course taken. An Administrator who is a half time employee, a retired school principal, and a part-time Field Service Coordinator supervise clinical placements. Additionally, faculty monitor performance during field experience placements.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Native Hawaiian or Other Pacific Islander	0	0
White	63	14

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	1	0
No Race/Ethnicity Reported	2	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(§205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☐

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
- Yes

No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
- Yes

No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
- Yes

No

Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
- Yes

No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
- Yes

No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
- Yes

No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
- Yes

No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The Education Department has a collaborative relationship with area schools that is anchored by the Professional Advisory Committee. This committee meets yearly to solicit feedback regarding program, students and graduates, and to understand the needs of school districts. Feedback about the quality of our students' program is also gained through the contact with Internship and student teaching field supervisors. Educators from area schools serve as adjunct professors and guest speakers, which gives students an authentic link to challenges surrounding children with disabilities, low income students, and limited English proficient students.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(\\$205\(a\)\(1\) \(A\)\(i\), \\$205\(a\)\(1\)\(A\)\(ii\), \\$206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Instructional media use is integrated into all methods courses where students evaluate existing programs, design programs, compile information, present information and communicate effectively both in the classroom setting and beyond. Students work with the Standards Aligned Systems, E-metrics, and other PDE tools to develop skills in data-informed instruction. EDUC 225: Assistive and Instructional Technology is included in the course sequence. This course has a dual focus: the use of technology to facilitate instruction in a diverse classroom, and assistive technology available for students with diverse needs. Students enrolled in EDUC225 Assistive and Instructional Technology will explore a wide variety of no, low and high tech assistive technology through access to Pennsylvania's Assistive Technology Lending Library. A presentation by a representative from Tobii-Dynovox will provide hands on experience with a range of Augmentative and Alternative Communication devices (AAC). Students will complete a mandatory visit to the Hiram G. Andrews Center, where they will attend mini presentations by OT, PT and Orientation and Mobility Specialists. All Education students are given a subscription to BoardMaker Online, a powerful web based program from Mayer Johnson, that allows teachers to create a wide range of visual supports using universally recognized symbols and utilize communication software that provides voice output. Education majors enrolled in EDUC305 IEP Content and Secondary Transition are given a subscription to IEP Writer, a comprehensive web based tool that allows teachers to create customizable Individual Education Programs for students receiving special education services as well as a wide range of other legal forms used by special education professionals. Districts and schools in the state of Pennsylvania currently use IEP Writer. Students in EDUC305 are required to create

a legally correct IEP using this software. Students in several special education classes utilize Braille writing and labeling devices, a variety of switches and voice output devices. All students in EDUC 215 receive a semester long subscription to News2You, a leveled, online, interactive newspaper targeting diverse learners in grades K-12. The department purchased and uses a telepresence robot (Kubi) to allow pre-service students to learn to include students in K-12 who are homebound in the general education curriculum. The robot will also be used to meet the needs of pre-service students who are unable to attend classes in person due to health concerns.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All Education majors take coursework with integration of content related to teaching students with disabilities. EDUC 205 introduces students to the diversity of children and adolescents in regard to cognitive, behavioral and emotional differences. This introductory course relates strongly to careers in education, psychology, social work, occupational therapy, physical therapy, etc. The legal basis for special education and accommodations will be studied, along with the history of the special education movement. The 13 categories of exceptionality covered by the Individuals with Disabilities Education Act (IDEA) will be closely examined, along with the diagnosis of Developmental Delay. Understanding and programming for the needs of students with disabilities will be addressed through explicit instruction, group activities, and authentic assessments. Students will explore the variety of career opportunities in education and related careers helping students with special needs. Included as part of this course are four hours of field experience working with children on the autism spectrum. This course fulfills all of the PDE Special Education candidate competencies for Professional and Ethical Practices. EDUC 225 has a dual focus: the use of technology to facilitate instruction in a diverse classroom, and assistive technology to support students with diverse needs. Assignments will emphasize the use technology as a tool to plan, effectively modify, and supplement instruction. Students will select, design, and use technology, materials and resources required to educate all students, including those with complex instructional and communication needs and those with complex bodies. Students be introduced to the SETT framework for assessment and will participate in a demonstration of a wide range of high, mid and low tech assistive technology, including a variety of augmentative and alternative communication devices (AAC). In addition, students will create low tech assistive technology that will allow a case study student to access the curriculum. EDUC 420 is an introductory course on Autistic Spectrum Disorders that will focus on the range of behaviors, characteristics and educational implications of students on the Autism Spectrum. Focus will be on ABA based teaching interventions in the classroom and natural environment teaching (NET). Areas of communication, social skills, and stereotypical behaviors will be examined. Recognition of, and intervention for co-morbid conditions such as Obsessive Compulsive Disorder and Anxiety Disorder will be examined. Family relationships and long term educational planning will be addressed.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

EDUC 205 introduces students to the diversity of children and adolescents in regard to cognitive, behavioral and emotional differences. This introductory course relates strongly to careers in education, psychology, social work, occupational therapy, physical therapy, etc. The legal basis for special education and accommodations will be studied, along with the history of the special education movement. The 13 categories of exceptionality covered by the Individuals with Disabilities Education Act (IDEA) will be closely examined, along with the diagnosis of Developmental Delay. Understanding and programming for the needs of students with disabilities will be addressed through explicit instruction, group activities, and authentic assessments. Students will explore the variety of career opportunities in education and related careers helping students with special needs. Students are introduced to the Individualized Education Program in EDUC205, where they are given instruction in the makeup of the IEP team, accommodations and modifications, present levels of academic achievement and functional performance, measurable annual goals and supplemental aids and services. Their assessment includes a critique of a sample IEP. Field work requirements include working directly with students in a special education transition program that provides vocational training. Students act as job coaches and collect vocational assessment data for each student. They receive information from the special education teacher on how this data relates to the students' IEP transition goals. This course fulfills all of the PDE Special Education candidate competencies for Professional and Ethical Practices. EDUC 315 includes an overview of characteristics of students with Emotional/Behavioral Disorders, and the legal basis for discipline in schools. Focus is on establishing good classroom management and identifying and meeting the needs of all students who exhibit problem behaviors. The general principles of Applied Behavior Analysis and steps to complete Functional Behavioral Assessments, Behavior Intervention Plans and measurable annual IEP goals relating to behavior will be covered. Behavioral interventions at the school, classroom and individual level will be examined within the context of a Response to Intervention model. Eight hours of field experience include observation and data collection of student behavior in a special education setting, a tour of a classroom serving adjudicated youth in a secure setting, and observation of small group instruction in social skills.

c. Effectively teach students who are limited English proficient.

All Education majors are required to take a three credit course that is devoted to teaching English Learners. EDUC261 includes all of the competencies in PDE's Accommodations and Adaptations for Students with Disabilities in an Inclusive Setting and Meeting the Needs of English Language Learners Program Guidelines. Students learn a variety of effective instructional practices for English learners, demonstrate knowledge of the difference between social and academic language, the bias in instruction, materials and assessments and socio-cultural characteristics of ELs, including educational background and demographics. Students use PA ELPS to design content assessment and use that data to differentiate and modify instruction for optimal student learning. Attention is given to supporting young dual language learners with disabilities. The danger of mislabeling students with limited English proficiency as students with disabilities is also covered.

2. Does your program prepare special education teachers?

- ☒ Yes
☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The Special Education programs at Saint Francis University were created in accordance with the Pennsylvania Department of Education's Certification Preparation Program Guidelines for Special Education Grades PK-12 and contain all of the required candidate competencies for classroom instruction and fieldwork. Specific examples include hands-on training in EDUC405 lab on feeding, transfers, transition and related services and medical issues such as seizures, feeding tubes, etc., for students with complex bodies. Students in EDUC405 demonstrate knowledge of students with complex instruction and communication needs by creating adapted books and reading them with children who have complex needs. Special emphasis is given to the principles delineated in Project Max, an educational initiative by the Pennsylvania Department of Education designed to meet the needs of students with complex instructional needs. Students create a standard aligned unit plan utilizing Alternate Eligible Content from the PA Standard Aligned System, with special attention given to providing vocabulary instruction in core words and removing barriers to learning. EDUC 405 and 405 Lab are taken together and require students to utilize a wide range of resources provided by PaTTAN and PDE. In EDUC 315, students are introduced to the FBA process. They complete a case study where they participate in a mock manifestation determination meeting, go through the FBA process and construction of a Behavior Intervention Plan for a hypothetical student. Students in EDUC 415 and 433 receive instruction in Direct Instruction, explicit teaching and co-teaching. They learn specific interventions and teaching methods to help students with disabilities in reading and math and executive function disorders. Instruction in working effectively with students in secure facilities and the similarities and differences this population shares with students with high incidence disabilities is covered. Students receive specific training in the characteristics, needs and strengths of students with autism in EDUC 420. They are required to demonstrate knowledge of a variety of research-based teaching methods including prompting, applied behavior analysis, discrete trial teaching, visual supports and social skills training. Fifteen to thirty hours of field work includes creating and delivering a social skills lesson. In EDUC225, students investigate and create assistive technology for a range of learners. They receive hands-on experience with assistive technology in areas of communication, mobility, seating, vision and learning.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students are introduced to the Individualized Education Program in EDUC205, where they are given instruction in the makeup of the IEP team, accommodations and modifications, present levels of academic achievement and functional performance, measurable annual goals and supplemental aids and services. Their assessment includes a critique of a sample IEP. Field work requirements include working directly with students in a special education transition program that provides vocational training. Students act as job coaches and collect vocational assessment data for each student. They receive information from the special education teacher on how this data relates to the students' IEP transition goals. In EDUC 305 students examine example IEPs for a variety of students with high and low incidence disabilities. They create a legally correct IEP for a hypothetical student and defend it in a mock IEP meeting. Students then review and present a case from the Office for Dispute Resolution's Hearing Officer Decisions web page where the IEP was the issue. In EDUC433, students create IEP goals, accommodations and modifications and related services for hypothetical students with high and low incidence disabilities.

c. Effectively teach students who are limited English proficient.

All Education majors are required to take a three credit course that is devoted to teaching English Learners. EDUC261 includes all of the competencies in PDE's Accommodations and Adaptations for Students with Disabilities in an Inclusive Setting and Meeting the Needs of English Language Learners Program Guidelines. Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Data for PDE Major Review of 11 programs was compiled during the 2017-2018 and 2018-2019 years for submission in Fall 2019. All data and supporting documentation was uploaded to Sharepoint in December of 2019. Approval for 10 of 11 programs was received in February and March of 2020. The current COVID-19 epidemic has delayed the final program response. All programs are reviewed annually based upon student surveys, mentor surveys, faculty input, certification pass rates, and job placement upon graduation. Analysis of data drives program revision and updates.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.
