Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Career Placement Rate	The Career Placement Rate is determined through a comprehensive survey of 2017 graduates conducted by the Saint Francis University Office of Career Services and reported in its <i>Class of 2017 Final Destination Report</i> . The survey determines a successful career placement as being either a full-time job in the graduate’s field of study or continued study in graduate school within 6 months of

	<p>graduation. The <i>survey response rate</i> for graduates ranged from 68% for MHRM graduates to 100% for accounting graduates. Saint Francis University habitually achieves high response rates for this survey that measures a critical success metric for the Shields School of Business. There is a usual year-lag in the graduation year report compared to the Academic Year it is reported for. More simply, it collects outplacement data for the 2017 graduation year during the 2017-2018 Academic Year.</p>
