

**Community Enrichment Series
Fall 2018**

All Saint Francis University community members are welcome to attend any of the Community Enrichment Series (CES) programs. Many professors incorporate CES programs into their courses in order to enrich the classroom experience and integrate learning in and out of the classroom.

First-year students are required to participate in the Community Enrichment Series, Core 103-104, on a Pass/Fail basis in partial fulfillment of their General Education requirement for graduation. ***In order to receive a passing grade at mid-term, students must attend a total of three programs. To receive a passing final grade, students must attend a total of six different programs by the end of the semester.***

Because a goal of the General Education Program is to encourage you to broaden your horizons and expose you to new ideas, we hope you will sample several of the categories listed below and perhaps even make one of your choices a program you would normally be least likely to attend.

Events listed in red are offered multiple times over the course of the semester, but students may only earn one CES credit for attending these events. You may earn only ONE CES credit for Museum.

Day of event	Date	Time	Title	Description	Location	Sponsor
Thursday		6 – 7 p.m.	SGA Student Senate Meeting	The Student Government Association of SFU serves as the voice of the student body by providing Saint Francis University students with representation, services, and advocacy within the university structure. Wednesday	12/5	6 p.m.	Baby, It's Cold Outside	Join us in making hats and baby blankets for women in crisis pregnancies while enjoying a hot cocoa bar.	JFK Lounge	Paul Girardi
Friday	1/25/2019	2:10 p.m. – 3 p.m.	Global Warming: the cold, hard facts	Global warming (climate change) is becoming a big topic of our earth. A large amount of data was collected, interpreted and published to the public domain by scientists, institutions, and governments. But, there exists arguments about the conclusions, the data itself, and the way of data delivered to the communities. The presentation of this CES event is trying to reveal more facts about the topic of global warming, to help our students better understanding the change of our earth. The speaker Gregory Wrightstone is a geologists with more than 35 years spent investigating the Earth and its process. He is the author of book INCONVENIENT FACTS published in 2017	Science Center 024	Guochang Wang
